Maribor, 6.5.2014

Dear customer,

Please be informed, that we have decided to change / improve the appearance of our products.

For brands AMIFIL and FILAN we will start using more attractive colored King-spools. Therefore the King-spool for brand FILAN will be changed from grey to **red** color and brand Amifil from grey to **green** color.

We will implement the change in our production starting with 1.6.2014.

Please note that for some transition time, until we do not use all current finished items stock, you will receive the threads as well on grey as also on red and green colored spools.

Yours sincerely,

A&E team ¹²
